Dear Diplomat,

The ABNM realizes that physicians may not have time for non-urgent professional activities during the COVID-19 public health emergency. Accordingly, the ABNM has extended the end of the first quarter of CertLink from March 31 to June 30, 2020 to give diplomates more time to answer the questions released in January 2020. No one will receive additional questions during this time (even those who have already completed their assignment), and no one will receive extra questions when new questions become available on July 1. The net effect will be a reduction in the total number of questions in 2020 by one quarter. This action will not have any impact on your CertLink performance, as shown on your dashboard.

Regards,

The American Board of Nuclear Medicine
